Woodbridge Liquidation Trust Announces Trading Symbol and Intent to Apply to Depository Trust Company for Direct Registration System Services

SHERMAN OAKS, California— March 16, 2020—Woodbridge Liquidation Trust (the “*Trust*”) announced today that the Financial Institution Regulatory Authority (FINRA) has assigned the trading symbol WBQNL for the Trust’s Class A Liquidation Trust Interests (the “*Class A Interests*”). The symbol was assigned following submission of a Form 211 by Imperial Capital, LLC, a full-service investment bank offering investment banking, institutional sales and trading, and institutional research services to institutional investors and middle market companies.

Pursuant to authorization by FINRA, Imperial Capital, LLC has initiated the quotation of prices for the Class A Interests on OTC Link[®] ATS, the SEC-regulated alternative trading system. OTC Link[®] ATS is used by participating securities brokers to enter, update, and display their proprietary quotations in individual securities on a real-time basis. The initial priced quotation for Class A Interests on OTC Link[®] ATS is \$15.00 Bid, \$25.00 Ask.

In a statement, the Trust’s Liquidation Trustee Michael Goldberg said, “Quotation of prices for the Class A Interests on an over-the-counter market represents the accomplishment of an important goal for the Trust—a goal that was established for the Trust under the Woodbridge plan of liquidation. The availability of the facilities of OTC Link[®] ATS facilitates trading of the Class A Interests and provides additional liquidity for our holders.”

Additionally, the Trust announced plans to apply to the Depository Trust Company for Direct Registration System (“*DRS*”) services for the Class A Interests. With the availability of DRS, registered holders of Class A Interests will be able to hold their Class A Interests, as appearing on the books and records of the Trust’s transfer agent, in book-entry form, enabling the securities to be electronically transferred from the transfer agent to a holder’s securities broker so that trades on OTC Link[®] ATS can be executed by the broker.

In a statement, Mr. Goldberg said, “DRS services for the Class A Interests should enable trades in these securities to be settled more quickly and efficiently. We expect to submit our application to the DTC very shortly and anticipate a favorable response within two to four weeks. While we are pleased to facilitate the rapid and efficient settlement of trades, I would like to remind all concerned that the Trust is not

making any recommendation as to whether any person should sell (or buy) any securities of the Trust at this time, or at all. As always, we recommend that each holder or investors should consider his or her own particular individual financial circumstances and investment objectives, and consult with his or her investment and tax advisors.”
